

PolyPure-AB Absolute PP Pleated Cartridge Filter

» An Absolute Filters with Higher Removal Efficiency

Description

PolyPure-AB Absolute PP Pleated Cartridge Filter uses the raw materials which have permitted by FDACFR21. This type of cartridge tolerates a variety of chemical solvents, used in the filtration of ordinary or corrosive fluid. We offer absolute filtration pore size: 0.2~30µm, 10inch~40inch different length. Many kinds of connect types can be choose according to customer's requires. The high surface area PolyPure-AB filters ensure long service life and low initial pressure drops.

All cartridge hardware components are high purity polypropylene materials for use in critical process applications. PolyPure-AB cartridges are manufactured and assembled in a clean room environment to minimize the possibility of contamination.

PolyPure-AB Series cartridges are available in a wide range of configurations to fit most commercially available filter housings.

Application

- Food and Beverage Processing
- High Purity Chemicals
- RO Pretreatment
- Chemical Mechanical Polishing

Pressure and Flow Rate

Unit conversion : 1bar=14.5Psi
Flow rate is for a 25.4cm (10inch) cartridge. For liquids other than water, multiply differential pressure by fluid viscosity (cP)
